Baseball in Arizona.
Manager McKelligan received a letter today from Manager Day of the Douglas ball team, inviting Tucson to participate in a tournament in the Smelter City for the championship of the territory. It is planned to have games there with Bisbee, Clifton, Morenci, Nogales and Tucson. Tucson is willing and the team will go to Douglas some time in September to wipe up the earth with the Douglas team.—Tucson Citizen.

Browns Win.
By bunching their hits and playing exceptionally fast ball, the Browns took the money from the Soldiers at Washington park yesterday afternoon in a game that was close and clean. Score, 4 to 3, says Monday's El Paso Times.

Reinhart's clever pitching was a feature of the game, but the splendid support of the team was likewise remarkable. For seven frames the Soldiers marched out and marched in without marking up a counter. In the eighth their luck changed and in the ninth they started on a batting streak that looked as if they would

Great Crowds.
The following dispatch from Silverton to the Denver News gives some idea of the crowd at the Labor Day game of yesterday:

Labor Day celebration began here this afternoon when a large crowd gathered to witness the baseball game between the local nine and the Las Vegas, N. M., team. Fanning and Lyons for the visitors and Glaze and Brierley for the locals were the batteries. Many errors were made, especially on the part of the visitors, and the game resulted in a score of 8 to 2 in favor of Silverton. The game was for a purse of \$100. Two more games will be played by these teams tomorrow and Tuesday, each for \$100 purses.

Great crowds of people have hurried into camp from all sections, and hotel accommodations are in demand. At the mines and mills closed down tonight for a two-days' vacation. The celebration will continue until Tuesday night. It will be the biggest Labor Day in the history of western Colorado.

Mrs. John Spring and adopted daughter, Goldie, departed from Clayton, Goldie going to Albuquerque to attend school and Mrs. Spring will visit the Portland fair.

A MEMORIAL HALL.
Dr. E. S. Bullock, medical director of the New Mexico Cottage sanitarium, which is being built two miles north of Silver City received word recently that the recreation hall of the new institution is to be built from funds raised by the relatives and friends of the late Henry Woodville, who, after spending several years in this country for his health, died after a brave fight, at his home in Philadelphia.

Raton Coal Fields

The Engineering and Mining Journal has an illustrated write-up of the coal properties in the Raton district, Colfax county, acquired from the Maxwell Grant company by the St. Louis, Rocky Mountain and Pacific railroad company, which is building a railroad from the eastern boundary of the territory, at Des Moines, Union county, on the Colorado & Southern, to Elizabethtown, Colfax county. The following is taken from this article:

The company has in operation two new and well-equipped coal mining plants; one, with a single drift opening, at Blossburg, four or five miles west of Raton, New Mexico; another with three drift openings at Van Houten, about ten miles southwest of Raton. The Van Houten plant dates from 1902 and the Blossburg plant from 1903. The former has electric haulage, the latter the tailrope system; in both operations the maximum possible use is made of gravity.

These lines now served by a bunch of the Atchison, Topeka & Santa Fe railway, will have similar connections with a new railroad 120 miles in length to be constructed by the St. Louis, Rocky Mountain & Pacific railway company.

The company's mineral property consists of 184,470 acres of coal land in Colfax county, and coal rights on a surface necessary for mining in 314,300 acres. The area controlled, about 500 square miles, is one-half as large again as all of the anthracite coal regions of Pennsylvania, and five times as large as the entire Connellsville basin. This property is the largest body of coal land under one ownership in the United States.

The coal lies in horizontal seams, mostly from five to thirteen feet thick, and is mined by audits and entries along the seams into the mesas or foothills. The mines are dry and non-gaseous.

WOULD KICK AND SCREAM

Baby's Awful Suffering from Eczema—Could Not Hold Her—Tore Face and Arms Almost to Pieces—Grateful Mother Says:

"CUTICURA REMEDIES SAVED HER LIFE"

"When my little girl was six months old, she had eczema. We had used cold creams and all kinds of remedies, but nothing did her any good; in fact, she kept getting worse. I used to wrap her hands up, and when I would dress her, I had to put her on the table, kick and scream, and when she could, she would tear her face and arms almost to pieces. I used four boxes of Cuticura Ointment, two cakes of Cuticura Soap, and gave her the Cuticura Resolvent, and she was cured, and I see no traces of the humor left. I can truthfully say that they have saved her life, and I should advise any one suffering as she did, to give Cuticura a fair trial. Mrs. G. A. Conrad, Lisbon, N. H., Feb. 7, 1898."

FIVE YEARS LATER

Mrs. Conrad Writes

"It is with pleasure that I can inform you that the cure has been permanent. It is now six years since she was cured, and there has been no return of the disease since. I have advised a lot of friends to use Cuticura in all diseases of the skin."

Instant relief and refreshing sleep for skin-tortured babies, and rest for tired, fretted mothers, in warm baths with Cuticura Soap and gentle anointings with Cuticura Ointment, the great skin cure. This is the purest, sweetest, most speedy, permanent, and economical treatment for torturing, disfiguring, itching, burning, scaly, crusted and pimply skin and scalp humors.
